

Assessment of Sector Wide Approaches (SWAp)

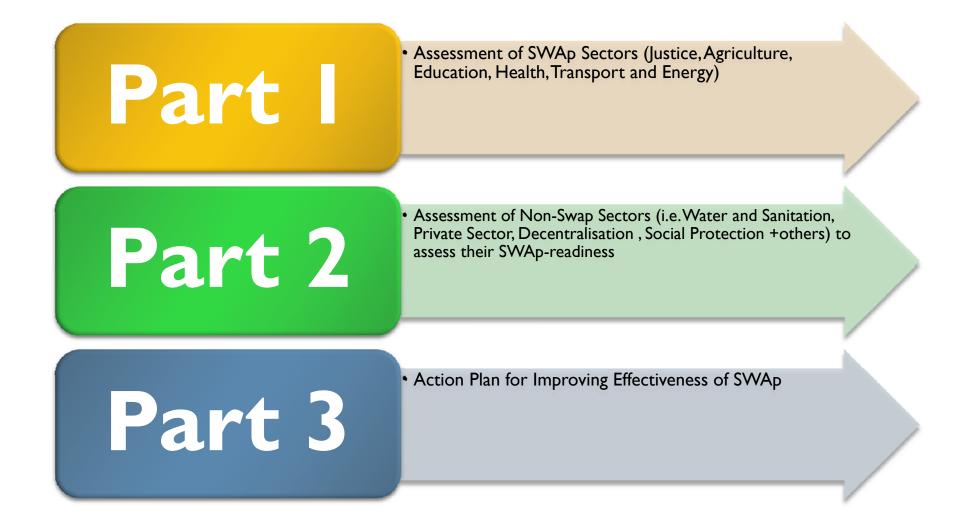

- Objectives of the Assessment
- References and Methodology Used
- Defining SWAp
- Criteria Applied for the Assessment
- Preliminary Results
- Way Forward

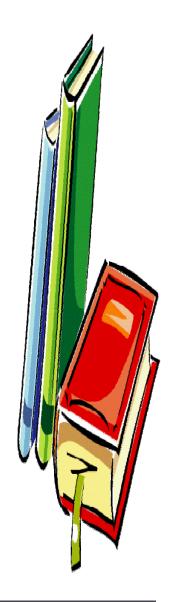

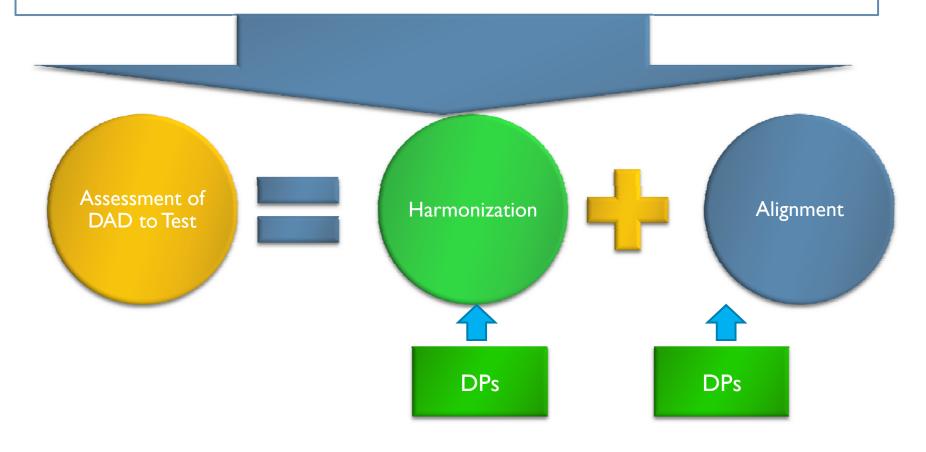

- SWAp MoU
- Sector Strategic Documents
- Sector M&E Framework
- EDPRS Self Sector Assessment
- District Self Sector Assessment
- EDPRS, Policy and Result Matrix, Common Performance Assessment Framework
- Development Partners' Assessment Framework
- Development Assistance Database
- Medium Term Expenditure Framework (MTEF), Strategic Issue Papers (SIPs)

Interviews were also conducted with all DPs and Most SWAP Sectors from the 10th to 25th of January, 2012; Second phase of interviews will be conducted from the 12th of February, 2012

The DAD is an important tool for assessing whether SWAPs are engendering improvements in harmonization and alignment.

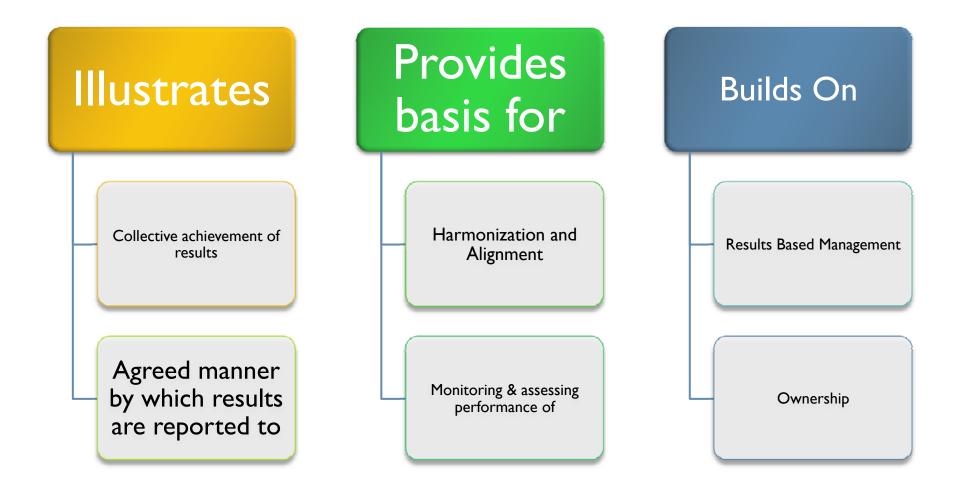

Method of working between government and development partners

To implement a single sector strategy

Reflected in a single expenditure programme for the sector

The purpose of a SWAP is to reduce transaction costs of development assistance in a sector while improving policy and technical dialogue between partners and government.

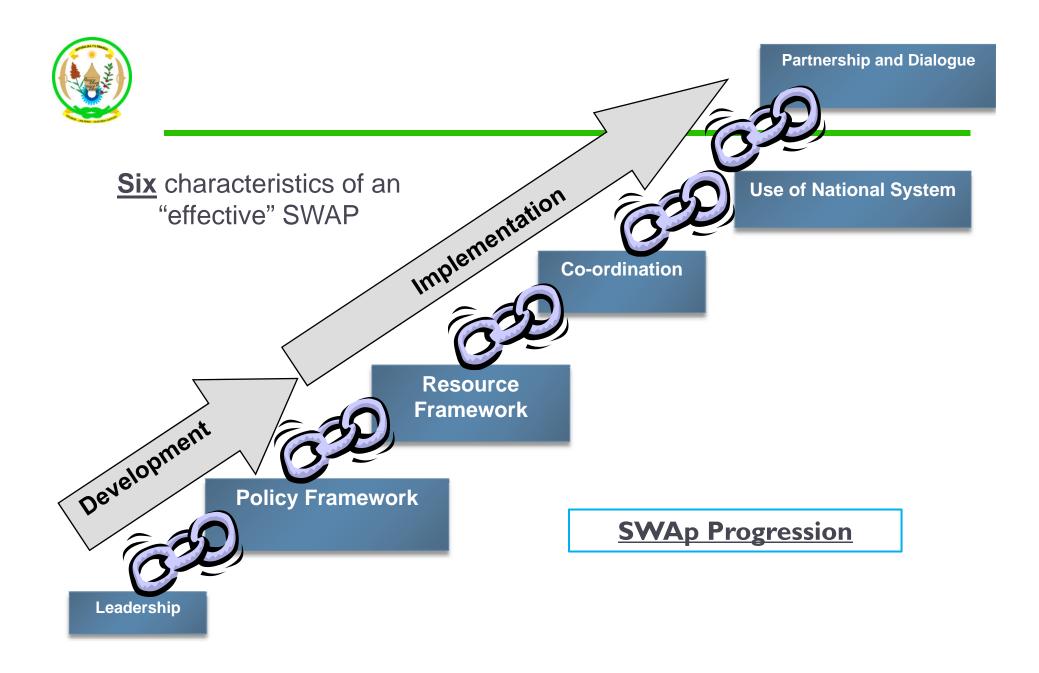

Aid Effectiveness Principles as the Basis of SWAp

8

Leadership

• Govt. sets out policy, identifies how resources are to be used, defines implementation arrangements, manages coordination and establishes effective monitoring mechanisms.

Comprehensive Policy/Planning

• Provides basis for defining the "sector" and the engagement of resources of all domestic and external partners

Comprehensive Resource Framewo

• An annual work plan (and/or a mediumterm framework linked to the budget) that supports the strategic allocation of resources and promotes consistency, prioritisation, efficiency, and sustainability

Co-ordination

 Formal process of donor coordination and harmonisation of donor procedures in reporting, budgeting, financial management and procurement

Use of National System

 Projects/programmes uses local systems of programme design, programme implementation, financial management, and monitoring and evaluation

Partnership and Dialogue

• Inclusive coordination mechanisms are established including participation of non state actors

Justice	Assessment Completed	
Agriculture	 Assessment Completed 	All SWAPs are undergoing a SWAP
Health	 Assessment Completed 	process, evolving towards the ideal of the effective SWAP characteristics. This assessment focused
Education	 Assessment Completed 	on comparing existing SWAPs against these ideal characteristics.
Natural Resources	 Work in Progress 	
Transport	 Work in Progress 	
Energy	 Work in Progress 	

SWOT of Justice Sector SWAp

Strengths:

- Strong leadership by the GoR
- Sector strategy fully aligned to EDPRS
- Relatively strong co-ordination, partnership and dialogue structure
- Improved NGO participation

Weaknesses:

- Absence of comprehensive policy
- Unclear roles and responsibilities of key institutions
- Fractured management and coordination of projects at the institutional level
- Strategic Plans not based on proper costing and cross-cutting issues are absent
- Low capacity in planning, budgeting, reporting and procurement
- Some institutions received proportionally more external funding than the others within the sector creating funding imbalance
- Sector Strategy Document mentions the costs only for priority activities only
- Limited link with (DDPs)
- Outputs/activities and the M&E framework of the Justice Sector is not captured in the DDPs.
- Too many meetings for stakeholders increasing transaction cost
- Co-ordination Secretariat is under staffed
- Sector strategy is largely silent on the role and contribution of civil society and

the private sector.

<u>Strengths:</u>

Programme-based support to the sector increased Proliferation of small projects (45 DP)
significantly in 2010/11 interventions in the sector in 2010/11 over half of
• Aid commitments to the Agriculture Sector which were for projects with disbursements of
increased by 64% in 2010/11 less than US\$1 mn per year)
• Establishment of SPIU would have a large impact, • Only 30.8% of aid to the sector in 2010/11 used
as there are many projects using PIUs in the national budget execution procedures
sector • Use of individual PFM systems lagged far behind
the DPAF targets
No reference to Public Private Partnership (PPP)
although sector is heavily dependent on the

SWOT of Health Sector SWAp

Strengths:	Weaknesses:
 Strong government leadership and ownership . High degree of co-ordination and partnership Joint work plans with NGOs outside the MTEF structure Resource Tracking Tool Establishment of SPIU. 63% of project missions were joint Limited expected changes in the sector as a result of the DoL. Acknowledgement that there is planning gap between DDPs and Sector Strategy 	 The Strategic Plan M&E framework does not capture the activities of Private Clinics Difficulty in accessing resource information by partners Missing link between the resource targets in the strategic plan and the budget for the health sector Many technical working groups but only few are active SWG meetings are considered to be too brief Limited communication/coordination with districts Uneven understanding of and participation within
 Opportunities: USG and other DPs are in dialogue regarding use of government systems in the health sector – large amounts of financing could be leveraged to support the government's development programs. Aid commitments to the Health Sector increased by 25% in 2010/11 Further involvement of the private sector. 	 Programme-Based Approach 4.7% of DP support used GoR's budget execution procedures in 2010/11

SWOT of Education Sector SWAp

 Strengths: The sector is considered to be very inclusive, particularly involving NGOs in a much more meaningful way than other sectors. Considered as a model of strong co-ordination Strong Sector Strategic Plan and M&E Framework 	·
 Oldest SWAP: sector is willing to innovate and experiment with different ways of working DPs have strong willingness to support 	 Strategic Plan, tending to around 78% towards the end of the period Threats: The predictability of aid fell in 2010/11, and only 77% of commitments were realized—short of the DPAF target of 83%. Number of project-type interventions for less than US\$1mn (disbursement per year) almost doubled (Half of the DPs involved in the sector in 2010/11 managed more than two project-type interventions) Less than 50% of aid uses budget execution procedures, the national financial reporting system and the national auditing procedures Only 28.6% of aid qualified in 2010/11 as PBA The lack of consultation on some key policy shifts has diminished the level of partnership in the sector.

Way Forward

Complete all SWAp Sector Assessment by 2nd of February, 2012

Complete Assessment of other remaining Sector (light touch) by 10th of February, 2012

Develop the Preliminary Implementation Plan (Action Plan) by 13th of February, 2012

Circulate the Draft to all Stakeholders by 15th of February, 2012

Organize Workshop on the 20th of February, 2012

Incorporate Comments and Submit Final Report by 24th February, 2012

THANK YOU
